Weekday Application Questions

EQUIP — Where do you see evidence of mankind’s psychological (guilt, shame) and physical (pain, disease, death) separation throughout the Bible? What stories/characters illustrate these divisions?

ENGAGE — How do people (yourself included) try to resolve the psychological and physical aspects of our death (ignore them, through the abuse of substances, extreme medical treatment, etc.)?

EXALT — How does our identity in Christ address the psychological division within us? How does our security in Christ address our physical death?

Here is your “One Thing” for this week: First, confess any secret sins that you are hiding and repent! Second, compile your personal “End-of-Life Plan.” Find a reputable attorney to get the conversation started, or, make sure your documents are up-to-date.
